## LET US HELP YOU CREATE AN EFFICIENT OFFICE LAYOUT

The design of your office reflects the culture, values and identity of your business. Getting it right can help you position your business in the eyes of your customers, increase the wellbeing of your team and lead to greater retention of both customers and staff.

It pays to have experts like us to assist you in getting your office design right and our Visual Design Concepts (VDC) services are designed to make the process easier. With our VDC services, we create photorealistic, 3D visualisations of your space with the furnishing options of your choice, in exacting detail to give you confidence in your design and your investment.

From just \$450 for a small space (ex GST), our team provides you with two design mockups of area, and a 3D electronic model of your chosen model, a floor plan and the option of 2 included design changes. The services are expandable to your needs so for more accurate pricing to meet your specific needs, please don't hesitate to send us a request for a quote.
